TOPIC OF CHOICE

BASKETBOXD

This topic is inspired by the website Letterboxd, where users can rate movies, add them to playlists, and leave comments.

Our take on this project is to focus on basketball games instead of movies. Users can rate basketball games, evaluate individual player performances, and comment on each game.

BasketBoxd

SPLITTING TASKS FRONTEND

Mochammad Rafly Fatih Rabbani

In charge of frontend creation, focused on the /games/, /list/, /main/, /profile/ pages, all the layout, and created all of the components in the components folder.

- HOMEPAGE
- COMPONENTS
- PROFILE
- GAMES
- LISTS

Hafizh Akbar Ghifarie Ramadhan

In charge of frontend creation, focused on the /login/, /register/ and /games/[id]. also made all of the stats of some of the games

- LOGIN
- GAMES/[ID]
- REGISTER
- SOME OF THE DATA

SPLITTING TASKS BACKEND

Nicolas Chriscia

In charge of the backend creation, focused on the /auth/, /users/, /lists/, and the corresponding /modules/ of the aforementioned tasks.

- AUTH
- MODULES
- USERS
- LISTS

Saddam Titanio Darmawan

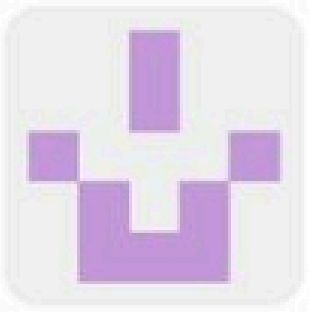

in charge of the backend creation, focused on the /games/, /player-ratings/, /profile/, search. integrated most of the backend with the frontend.

- GAMES
- PROFILE
- PLAYER-RATINGS
